FAMILY OFFERING

*Discover an adventure
playground perfect for the
entire family*

Our private island sanctuary is ideal for little explorers. Wide open spaces, gentle seas, and pristine forests invite children to explore to their heart's content under the wing of our team members, who take extraordinary care in sharing our deep appreciation for the land, wildlife and culture. In Malagasy, Miavana means 'to bring together' - an island that not only blends luxury with conservation and community, but also connection. Miavana provides an infinite sense of time and space to reconnect with one's family, one's self and one another, allowing time off and time together. Time to cherish forever.

KIDS ACTIVITIES

The ultimate playground

Our personalised children's program caters to all ages and interests. We encourage our young guests to get out and about with our team, to have fun and learn on the ground, whether that's diving with our PADI instructor, baking with our chef, learning about turtles from our conservation coordinator, or lemur trekking with our terrestrial guide... There's so much to keep young bodies and minds active on Miavana.

CONSERVATION

Children can explore the island's trails on guided nature walks for an introduction to Miavana's abundant fauna and flora. They can see our resident lemurs as well as the world's biggest chameleon and one of its smallest (barely the size of your fingertip!) as well as a variety of butterflies and bountiful bird life, plus the kind of creepy crawlies that fascinate little ones - the best part is that there's nothing dangerous or venomous on the island. Kids can also join our conservation coordinator and tag along with our turtle monitoring team, who walk the beaches every morning in search of turtle nesting activity, alternatively they can visit seasonal nesting terns on Manampaho, or choose to get their hands dirty and plant a tree, contributing to the island's ecosystem.

Kids can also venture out and experience Madagascar's warm culture first hand. Visiting the local village and meeting other young kids at the school run by the Time + Tide Foundation.
